Product Catalogue

Company Overview

Komot Pharmaceutical is a pharmaceutical company based in Prizren, Kosovo, dedicated to the development of innovative health products manufactured in the European Union. Since its establishment, the company has built a strong reputation through continuous innovation, high-quality standards, and a commitment to excellence.

Our team consists of qualified young and ambitious staff developing unique, innovative, high quality products to help our customers enlarge their own brand catalogue. All of our products comply with European GMP standards and contain combination of plant extracts, vitamins and minerals that can help with the most common problems and conditions today.

We are a growth-oriented company, committed to constantly seeking new partnerships and innovative products that help promote a healthier life. Responsibility, integrity, continuous improvement and respect for our customers and partners are some of our core values. We try to make them part of everything we do.

Our Products

All of our products comply with European GMP standards and feature a blend of plant extracts, vitamins and minerals designed to address common health issues.

In addition to adhering to strict production and distribution protocols, we conduct comprehensive stability studies to ensure that our products maintain their quality and effectiveness throughout their shelf life. We use only the highest-quality raw materials and patented ingredients to deliver exceptional results.

Komcyst is a proprietary and clinically evaluated product for the management of Polycystic Ovarian Syndrome (PCOS).

Komcyst helps to:

- Increase insulin-sensitising activity & Peripheral utilization of insulin, thus corrects insulin resistance and hyperinsulinemia.
- Brings down hypercholesterolemia.
- Lower testosterone production, thus normalizes symptoms of acne, irregular menstrual cycle slows abnormal hair growth.

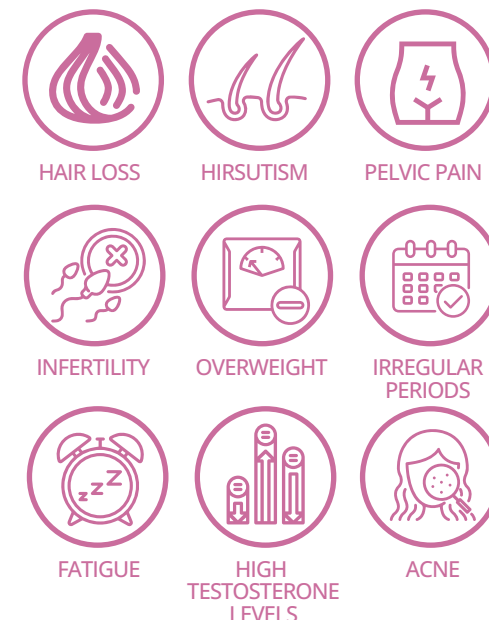

Percentage of Patients with irregular periods

GYNECOLOGY

Active ingredient	Per capsule
Fenugreek seed extract (Furocyst®)	500 mg

Clinical Study

PCOS SYMPTOMS

KOMCYST

Food supplement capsules for pregnant women. Contains Folic acid, Iron, Omega 3, vitamins and minerals.

Folic acid intake increases maternal folate levels. Folate is involved in the growth of maternal tissues during pregnancy, in physiological amino acid synthesis, plays a role in cell division, contributes to normal blood formation, the proper functioning of the immune system, and to the reduction of tiredness and fatigue.

Iron plays a role in cell division, contributes to the production of red blood cells and haemoglobin, the functioning of the immune system, cognitive functions, the reduction of tiredness and fatigue, and participates in normal energy-producing metabolic pathways.

Omega-3 (DHA) and Omega-3 (EPA) are among the polyunsaturated essential omega-3 fatty acids. EPA and DHA contribute to proper heart function.

	Per 100 g	Per 1 capsule
Eicosapentaenoic acid (EPA)	5,11 g	50,00 mg
Docosahexaenoic acid (DHA)	25,55 g	250,00 mg
Vitamins		
Vitamin B1	0,11 g	1,10 mg
Vitamin B2	0,14 g	1,40 mg
Vitamin B3	1,64 g	16,00 mg
Vitamin B5	0,61 g	6,00 mg
Vitamin B6	0,14 g	1,40 mg
Biotin	5,11 mg	50,00 µg
Vitamin B9	40,88 mg	400,00 µg
Vitamin B12	0,26 mg	2,50 µg
Vitamin C	4,09 g	40,00 mg
Vitamin E	1,23 g	12,00 mg
Minerals		
Manganese	0,10 g	1,00 mg
Copper	0,10 g	1,00 mg
Iodine	15,33 mg	150,00 µg
Selenium	5,62 mg	55,00 µg
Iron	1,43 g	14,00 mg
Zinc	1,02 g	10,00 mg

LadeeKom

Food supplement recommended to improve the physical and psychological symptoms of menopause.

Pine bark extract significantly contributes to reducing signs and symptoms associated with menopausal transitions in women.

Saffron extract helps to maintain a state of relaxation and mental and physical well-being. Contributes to relieve the menopause symptoms.

Quatrefolic® is the glucosamine salt of (6S)-5-methyltetrahydrofolate and is structurally analogous to the reduced and active form of folic acid.

Vitamin B6 - taking a vitamin B-6 supplement during and after menopause may help prevent symptoms caused by low serotonin levels.

Vitamin B12 contributes to normal energy metabolism, weight control in menopause.

Vitamin B5 contributes to normal mental performance, contributes to the reduction of tiredness.

GYNECOLOGY

Active ingredients	Per capsule
Pine bark extract (<i>Pinus pinaster</i> Ait.)	60 mg
Affron® (<i>Saffron extract</i>)	28 mg
Folic acid (Quatrefolic®)	400 mcg
Pyridoxine (Vitamin B6)	10 mg
Vitamin K2	45 mcg
Cholecalciferol (Vitamin D3)	5 mcg
Cyanocobalamin (Vitamin B12)	9 mcg
Pantothenic acid (Vitamin B5)	30 mg

Quatrefolic®

Clinical Study

It is the biologically active form. It can enter the folate cycle directly.

No unmetabolized folic acid with Quatrefolic®, for a safe and full active folate efficacy. Quatrefolic® crosses Blood Brain Barrier.

3 times higher bioavailability with Quatrefolic® than folic acid.

As Quatrefolic® is already the biologically active form of folate, it doesn't mask the vitamin B12 deficiency.

Menokom

SHT-KOM is a premium food supplement formulated with 300 mg of SRI-81® Shatavari, a clinically studied botanical extract designed to naturally support women's hormonal health, emotional wellbeing, and quality of life.

SRI-81® is a clinically studied extract of *Asparagus racemosus* (Shatavari), one of the most respected herbs in traditional women's health.

Clinical research demonstrates that SRI-81® helps support hormonal balance while promoting overall wellbeing during different stages of a woman's life.

Who Is SHT-KOM For?

SHT-KOM is ideal for women seeking natural support for:

- Hormonal balance
- Premenstrual wellbeing (PMS)
- Perimenopause
- Everyday emotional wellbeing
- Overall women's health

GYNECOLOGY

Active ingredient	Per capsule	%NRV*
SRI-81® Shatavari Extract (<i>Asparagus racemosus</i>)	300 mg	**
* NRV: Nutrient Reference Value not established.

FOCUS & CONCENTRATION

Helps maintain mental performance during busy days

EVERYDAY COGNITIVE SUPPORT

Designed for everyday cognitive support

ONE CAPSULE DAILY

Convenient one-capsule daily formula

CITIKOM

Arthrokom combines UC-II® together with the unique ingredient VitaMK7®, for the best solution to protect your joints, their function, flexibility, comfort and mobility.

UC-II® supplies collagen with undenatured type II collagen for joint health support. UC-II® is manufactured through a patented, low-temperature, non-enzymatic manufacturing process, which ensures its bioavailability in the body.

VitaMK7® is the optimal vitamin K2 product, with more than 99% all-trans menaquinone (MK7). MK7 is the only active form of vitamin K2.

WEAR & TEAR

Daily activities, exercise, or normal stress could lead to joint wear and tear.

REPAIR

New cartilage is made.

CLEAN

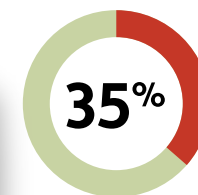

Old cartilage is removed.

RHEUMATOLOGY & ORTHOPEDIC

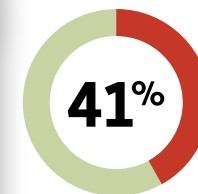

Active ingredient	Per capsule
UC-II® (providing 10 mg total collagen)	40 mg
vitaMK7®	75 µg

Clinical Study

Superior to glucosamine + chondroitin as measured by WOMAC

35% better than glucosamine + chondroitin

41% better than placebo. As measured by WOMAC pain subscale.**

Arthrokom

HydraSight is a premium ophthalmic solution formulated to provide fast and effective relief for eye irritation.

Its advanced formula ensures comfort and protection, helping you to maintain optimal eye health in any situation.

Hyaluronic acid possesses viscoelastic, mucomimetic and mucoadhesive properties which improve tear film stability and keep the ocular surface lubricated, hydrated and protected.

Arnica montana has been studied for the treatment of several inflammatory conditions, both post-traumatic and post-surgical.

OPHTHALMOLOGY

Ingredients

Purified water

boric acid

0.2% hyaluronic acid from sodium hyaluronate; sodium tetraborate

sodium chloride

0.1% arnica glyceric extract.

When to Use Hydra Sight:

Hydra Sight is effective for the symptomatic treatment of:

- Eye irritation and redness.
- Dryness caused by prolonged contact lens wear
- Symptoms associated with conjunctivitis
- Discomfort following ocular surgery
- Traumatic injuries to the eye

HydraSight

Optikom is a unique supplement that helps reduce dry eye symptoms, supports eye health, and promotes normal tear production by combining two key ingredients, Omega 3 fatty acid and Maqui berry extract.

MaquiBright® is a patented maqui berry (*Aristotelia chilensis*) extract standardized to bear a minimum of 25% Delphinidins and a minimum of 35% total anthocyanins.

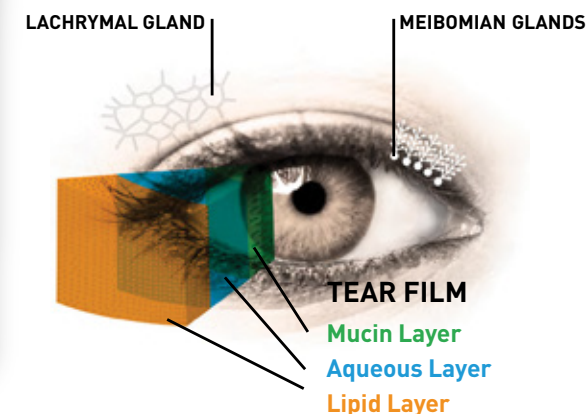

Omega-3 fish oil positively affects the lipid layer synthesis of the meibomian glands, stabilises the tear film and thus prevents evaporation of the aqueous tear fraction.

OPHTHALMOLOGY

Nutritional Information	Per capsule
MaquiBright® (<i>Aristotelia chilensis</i>) Berry Standardized Extract (standardized to minimum %35 total anthocyanins and minimum %25 total delphinidins)	60 mg
Fish oil	250 mg
DHA	125 mg
EPA	25 mg

OPTIKOM DOUBLE ACTION ON TEAR FLUID PRODUCTION

OPTIKOM

Omegakom is a food supplement for children, containing Omega 3 & Vitamin D.

Omegakom is a new generation fish oil that supports healthy growth and development in children. It is easily used thanks to its gel tablet form and flavor. It does not give a fishy taste and smell, and it does not cause complaints such as reflux and gas. Omegakom is produced in Norway with patented ConCordix technology.

A **clinical study** showed that this fish oil supplement has a higher absorption rate and 44% greater bio-availability compared to traditional soft-gel capsules. Omegakom children's fish oils have disposable blister packages. In this way, it is not exposed to external factors such as air, light and humidity and preserves the oxidation values of the first day.

PEDIATRIC & PROBIOTICS

Nutritional Information Amount

Fish Oil	600 mg
Total Omega 3 Fatty Acids	378 mg
DHA	271 mg
EPA	60 mg
Vitamin D	5 µg

Easy to take

- Chewable supplement, no need to swallow with water
- Flavored the healthy way, naturally sugar-free
- No fishy taste, aftertaste or reflux

Enhanced absorption

- ConCordix mirrors the structure of food like fish
- Increased contact surface in the intestines
- Can contain water and fat soluble nutrients

Crazy amounts of nutrients

- Allows for clinically validated dosing in one chew
- Chews are packaged with a purpose to keep quality and freshness stable during shelf life.

OMEGAKOM KIDS

KidBrain is a food supplement formulated for children, containing essential Omega-3 and Omega-6 fatty acids that cannot be produced by the body.

Omega-3 provides overall support for decrease hyperactivity, impulsiveness, restlessness, and aggression. They also aid sleep quality and reduce symptoms of ADHD and asthma.

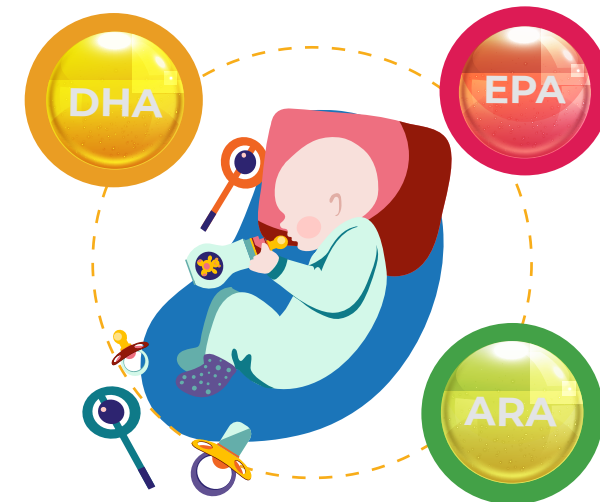

DHA, as the main structural component of the retina, supports vision development, visual acuity, and overall eye health.

EPA specifically supports cellular structure and function, neurological and cognitive development, and immune health.

ARA is an Omega-6 fatty acid. ARA is critical for infant growth, brain development and overall health.

Nutritional Information	Amount
Total Omega 3 fatty acids	131 mg
DHA (docosahexaenoic acid)	106 mg
EPA (eicosapentaenoic acid)	25 mg
Total Omega 6 fatty acids	7 mg
ARA (arachidonic acid)	7 mg

KidBrain

HELIKOM is a food supplement containing Gutgard® (derived from *Glycyrrhiza glabra*) and probiotic blend and it is designed for the management of *Helicobacter pylori*.

Also, this product is used as an adjunct to *Helicobacter pylori* triple therapy and helping to reduce gastrointestinal symptoms, enhance antibiotic efficacy, and minimise antibiotic side effects.

GutGard® is a clinically researched, flavonoid-rich, natural bioactive ingredient derived from *Glycyrrhiza glabra*, which supports daily digestive health

Gutgard® licorice flavonoids have been shown to protect the stomach lining and balance *Helicobacter pylori* levels much more effectively than regular DGL extracts.

Probiotics increase the eradication rate in the treatment of *H. pylori* infection, improve clinical symptoms, and increase patient compliance by reducing treatment-related antibiotic-related side effects.

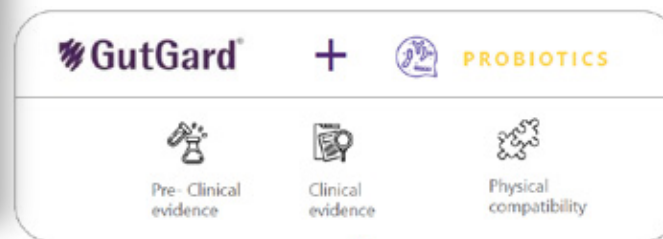

GUT HEALTH

Nutritional information	Amount
GutGard® DGL licorice root extract (<i>Glycyrrhiza glabra</i>)	150 mg
<i>Lactobacillus</i> sp. blend containing: • <i>Lactobacillus casei</i> • <i>Lactobacillus acidophilus</i> • <i>Lactobacillus paracasei</i> • <i>Lactobacillus plantarum</i> • <i>Lactobacillus rhamnosus</i>	20 Billion CFU

HOW IS GUTGARD® A NATURAL PROBIOTIC PARTNER ?

Clinical Study

GutGard® works in both stomach and the intestine and has synergistic activity with probiotics

Helikom

Komtero is a food supplement and nutritional product which contains a total of 30 billion CFU per capsule that aims to benefit general gastrointestinal health, and to support against some of the most typical gastrointestinal disorders.

Made in EU

Komot Creatine is a premium creatine monohydrate made with Qura Creatine® delivering exceptional purity, excellent solubility and trusted quality in every scoop.

WHY CREATINE? Creatine helps muscles produce energy during short, intense exercise. Supplementing with creatine increases the body's phosphocreatine stores, supporting ATP regeneration and enhancing performance.

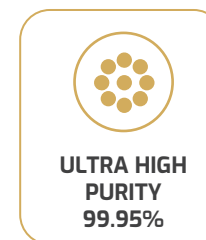

BENEFITS OF CREATINE MONOHYDRATE

- 
Increases physical performance
Supports performance during successive bursts of short-term, high-intensity exercise.
- 
Improves strength and power
Helps increase strength, power and explosive performance.
- 
Enhances training performance
Allows you to train harder and maintain intensity across multiple sets and workouts.
- 
Increases physical performance
Supports performance during successive bursts of short-term, high-intensity exercise.
- 
Supports lean muscle development
When combined with resistance training, creatine supports improvements in muscle performance.
- 
Simple and effective
One of the most researched and proven ingredients in sports nutrition.
